

## Indiana Office of Energy Development Update

### **CCC Grant Program Expanded To Include Renewables**

The Community Conservation Challenge (CCC) is a program that offers financial assistance to non-residential entities for projects that reduce an organization's energy consumption. CCC grants provide funding of from \$25,000 to \$500,000 for the implementation of highly leveraged, unique, and visible community energy conservation projects. An anticipated \$1.2 million of federal funding is available to local units of government, school corporations, businesses, and nonprofit agencies in Indiana. [Read more about the program by clicking here.](#) The application period closes **Nov. 10, 2011.**

### **CHIP Program Awards Expected Soon**

The application period is closed and scoring is now underway for the Conserving Hoosier Industrial Power grant program. This program will provide grants from \$100,000 to \$500,000 to help pay for large-scale energy efficiency

#### **Upcoming Events**

##### **Governor Daniels to Address Secure Energy Conference**

**October 25, 2011**

##### **Indianapolis**

This event will highlight the critical role North American petroleum and natural gas plays in American's and Indiana's economy. Learn about the conference by clicking [here](#).

#### **Other October Events**

October 19--EV Infrastructure event, Merrillville. [Click here for Info.](#)

October 21--Boomtown III event in Union City. [Click here for more info.](#)

upgrades or retrofits. An announcement of successful applications is expected shortly.

## **Alternative Fuel Vehicle Grant Program Selections To Be Announced.**

The AFV grant program, for government entities, businesses, school corporations, institutions of higher education, health care facilities and not-for-profit agencies in Indiana is now in the scoring phase. Grants from \$40,000 to \$500,000 will be available for on-road fleet vehicles only. The funds can be used to cover the cost differential between the cost of purchasing an alternative energy vehicle rather than a traditional fuel vehicle. It can also be used to defray the cost of retrofitting an existing vehicle.

## **Energy Action In Schools Participant List Released.**

Fifteen Indiana schools will be taking part in the Energy Action in Schools program this school year. Each school will form Energy Action Patrols, made up of students, teachers, administrators and facilities managers to find ways to conserve energy in their school buildings. The program is made possible by federal grant funds administered through the Indiana Office of Energy Development.

These schools are taking part in the program during the 2011-2012 school year:

- Chrisney Elementary School (Spencer County)
- Clark Pleasant Intermediate School (Johnson County)
- Clifty Creek Elementary School (Bartholomew County)
- Eads Elementary School (Lake County)
- Fishers High School (Hamilton County)
- Fishers Junior HS (Hamilton County)
- Hope Elementary School (Bartholomew County)
- Heritage Hills Middle School (Spencer County)
